EDUCATION

Thapar Institute of Engineering and Technology

B.E. in Computer Engineering with a current CGPA of 9.00/10

R. A. N. Public School

passed 12th standard with 96.6% and 10th standard with 98.4%

Patiala, Punjab

Sep. 2022 – Present

Rudrapur, Uttarakhand

May 2021

EXPERIENCE

Summer Intern | Defence Research and Development Organisation (DRDO)

3 June 2024 – 20 July 2024

- Worked on pub-sub architecture and technologies like ActiveMQ and Apache Kafka.

Software Engineering Intern | Google

9 June 2025 – 29 August 2025

- Contributed to development of the platform for building Open Source Software (OSS) packages within Google's Cloud Infrastructure.
- Played a role in enhancing and thoroughly testing the build process, focussing majorly on automation and integration.
- Assisted in improving the efficiency of OSS delivery to Google teams by streamlining the existing workflows.

POSITIONS OF RESPONSIBILITY

Executive Board Member | Creative Computing Society (CCS)

September 2022 – Present

- Successfully organized a major MLH hackathon with a 4.5-star rating and participation from all 28 states of India.
- Skillfully handled finance and documentation for over 15+ technical events and competitions.
- Leading a coding community of over 6000 members as a DSA Mentor.

PROJECTS

Society Permissions Portal | TypeScript, ReactJS, Django, MaterialUI

[Github](#)

- The portal enables 50+ college societies and clubs to seek event permissions directly from college authorities, simplifying and speeding up the approval process.
- Societies and clubs can easily request and receive financial funds for their events.
- By digitizing the permission and funding process, the portal significantly reduces manual hassle and paperwork, leading to a more organized and eco-friendly approach to event management.

Leafline | Blockchain, Satellite Imagery, AI/ML, Geospatial Analysis, React.js, Node.js, Express.js, MongoDB

[GitHub](#)

- LeafLine is a blockchain-powered Green Credit Management system that leverages satellite imagery and geotagged verification to ensure transparency, accuracy, and continuous monitoring of environmental credits.
- It streamlines credit issuance, trading, and validation while promoting sustainable environmental actions.

Plot Patrol | ReactJS, MongoDB, LIDAR, OpenCV, Drone Imaging

[Github](#)

- Developed Plot Patrol, a drone-powered system to detect illegal constructions and encroachments using 3D mapping and LIDAR.
- Integrated with government databases (MCD plans, registry, tax systems) for verification and reporting.
- Enhanced urban compliance by automating detection of structural violations and streamlining inspections.

TECHNICAL SKILLS

Languages: C/C++, Go, Python, Javascript, SQL

Frameworks/Libraries: gRPC, HTML, CSS, React, Node.js, Express, MATERIALUI, Tailwind

Technologies and Environments: Git, Unix/Linux environments, Distributed systems, Machine learning, MongoDB, Spanner, PostgreSQL, Oracle

Soft Skills: Communications & Presentation, Critical Thinking, Decision Making, Leadership, Problem-Solving

ACHIEVEMENTS

Smart India Hackathon 2023 2024, Winner: Recognized as finalists in five separate projects and secured victory among more than 100,000 competing teams for two consecutive years.

Techacks 4.0, 2nd Runner-up: Emerged victorious in North India's largest hackathon organized by MLH.

HackFest by SAP, Winner: Triumphed over over 2500+ competing teams from across India.

Innohacks 5.0, 2nd Runner-up Track Winner: Secured dual recognition at KIIT's flagship national hackathon.

VOLUNTEERING

Member of Campus People For Animals TIET

- Rescued and assisted over 100 injured/unwell campus dogs and over 20 birds.
- Spearheaded 5+ cloth and food donation drives and participated in dog vaccination campaigns.
